FOREWORD

This bibliography serves as an index to documents entered in the ERIC system by the Clearinghouse for Linguistics during 1968. It covers the following fields: Linguistics, Uncommonly Taught Languages, Teaching English to Speakers of Other Languages (TESOL) and Teaching English as a Native Language to Speakers of Nonstandard Dialects (TENL), as well as other areas of the language sciences falling within the scope of this Clearinghouse. In addition it provides a selected listing of related titles published in 1968 and in a few cases 1967, which were neither entered in the ERIC system nor included in the predecessor to this bibliography, the 1967-1968 Selected Bibliography in Linguistics and the Uncommonly Taught Languages (Margaret Kocher, comp.).

Although periodicals and other publications of foreign as well as American origin have been covered, entries have in general been limited to English language items or to those foreign language items which might be of special interest or for which English summaries are provided. Abbreviations used for periodicals, series and clearinghouses are listed on pages vii and viii.

Classificatory categories have been kept as broad as possible, and cross-referencing has been used wherever an entry may be of interest in more than one category. Although the categories General and Miscellaneous are not explicitly stated in the Table of Contents, entries of such a nature are listed directly under a given category heading, preceding the category's subgroups. Language classification follows that suggested by Charles Zisa in his Preliminary Directory of Language Names (1966).

Availability and, in most cases, price information are provided for documents available through special sources such as the ERIC Document Reproduction Service (EDRS), the Clearinghouse for Federal Scientific and Technical Information (CFSTI), the Government Printing Office (G.P.O.) or the Center for Applied Linguistics (CAL). Ordering procedures and explanations of the terms "MF" and "HC" may be found on page v. Users of the bibliography are also reminded that abstracts of entries bearing ED numbers, whether available through EDRS or not, may be found in the 1968 issues of Research in Education (R.I.E.), the monthly publication of the Office of Education.

The compiler would finally like to thank those members of the ERIC staff and of the Center for Applied Linguistics who helped in the preparation of this bibliography, especially last year's compiler, Margaret Kocher, and Anna Maria Malkoç.
